

# STUDENT STORY

## Alison

### **Area of study:**

Bachelor of Nursing (placement student at Bass Coast Health)

### **Why did you choose your field of study?**

To enhance my career in nursing.

### **How important has CUC Bass Coast been to your studies? How have you benefited from the Centre's services?**

I could not have done without Bec (CUC's Learning Skills Advisor) and her kindness. It makes me cry with gratitude.

Thank you. Thank you. Thank you. You are awesome.

### **Share with us some of your proudest moments as a student.**

Asking for help and then being able to pass. I have passed the year, which was my goal because I am not academic.

### **Please share any insights you have gained along your learning journey.**

To get help for the essay writing. I'm very lost with all the academia, but with the CUC help I was able to gain focus on the writing.
