

STUDENT STORY

Kate

Area of study:

Bachelor of Nursing

Why did you choose your field of study?

I have always wanted to be a nurse - to be able to help and hopefully make a difference when people are sick.

How important has CUC Bass Coast been to your studies? How have you benefited from the Centre's services?

What a fabulous centre and how lucky are we to have it in our area. It is somewhere to go and study in peace and without distractions and being able to use the facilities provided.

How do you plan to apply your knowledge and skills after graduation?

I would love to get a grad year at Bass Coast Health.

Share with us some of your proudest moments as a student.

Going back to study as a mature age student and hopefully being a positive role model to my 2 girls and teaching them to not give up on their dreams.

Please share any insights you have gained along your learning journey.

You can achieve anything if you have passion and a positive mindset.
